Basic Crepes #1

Recipe By : Mrs. A. Corbett Alexander, Swannanoa, North Carolina

Serving Size : 6 Preparation Time :0:00

Amount	Measure	Ingredient -- Preparation Method
--------	---------	----------------------------------

2	Cups	All-Purpose Flour
---	------	-------------------

1/2	Teaspoon	Salt
-----	----------	------

4	Large	Eggs
---	-------	------

1	Cup	Milk -- cold
---	-----	--------------

1	Cup	Cold Water
---	-----	------------

4	Tablespoons	Butter -- melted
---	-------------	------------------

		Salad Oil
--	--	-----------

Combine flour, salt and eggs; blend well.

Blend in milk, water and butter. Mix well.

Refrigerate batter for at least 2 hours, allowing the flour particles to swell and soften so that the crepes are light in texture.

Brush the bottom of a 6 or 7" crepe pan or heavy skillet lightly with salad oil and heat pan over medium heat until just hot, not smoking.

Pour scant 1/4 cup of batter in pan and quickly tilt pan in all directions to run batter all over bottom of pan in a thin film.

Cook for about 1 minute. Lift edge of crepe to test for doneness.

The crepe is ready for flipping when it can be shaken loose from the bottom of pan.

Flip the crepe and cook for about 1/2 minute on other side; this is rarely more than a spotty brown and is used as side on which filling is placed.

Crepes can be made in advance and stacked between layers of waxed paper to prevent them from sticking.

Crepes can be frozen; heat them in a covered dish at 300 degrees to thaw.

Yield; about 22 crepes

Amount	Measure	Ingredient	-- Preparation Method
2		Eggs	-- slightly beaten
2/3	Cup	Milk	
3	Tablespoons	Oil	
1/2	Cup	All-Purpose Flour	
1/4	Teaspoon	Salt	

In medium bowl, stir together beaten eggs, milk and 1 Tbsp. oil.

Gradually stir in flour and salt; beat until smooth.

Cover and refrigerate at least 1 hour.

Lightly brush a six or seven inch crepe pan or skillet with some of the remaining oil; heat until hot. Stir batter.

Pour about 2 Tbsp. batter into hot pan; tilt quickly so that batter runs to cover the bottom of the pan thinly but completely.

Cook, turning once, until light brown on both sides.

Repeat, using all the batter.

Brush pan with oil when necessary.

Recipe make about 12 crepes.

NOTES : Tip for better crepes. Batter should be about as thick as heavy cream. The pan should be quite hot but if oil begins to smotke, lift pan from heat source until it cools slightly. Expect the first few crepes to stick to the pan. If early crepes come out misshapen, use them for deep-fried snacks or noodles.

In a bowl, sift together flour, sugar, baking powder and salt; add frozen blueberries, and make a well in the center. Pour the milk into a 2 cup glass measure and add egg and butter; blend well. Pour liquid all at once into flour well. (This method allows you to mix the batter with fewer strokes, avoiding overtiring.) Making 12 to 15 full circular strokes that scrape the bottom of bowl; stir just until dry ingredients are moistened. Batter 'should' be lumpy. Fill each prepared muffin cup 2/3 full with batter. Bake for 20 to 25 minutes or until tops are lightly browned. Remove muffins from pan immediately (otherwise moisture condenses on bottom of cups and muffins become soggy). Makes 12.

Sour Dough Hot Cakes #2

Recipe By :

Serving Size : 1 Preparation Time :0:00

Categories :

Amount Measure Ingredient -- Preparation Method

STARTER: Old time recipe.

1/4 package granular dry yeast

1/4 cup luke warm water

Flour

Dissolve yeast in luke warm water. Put dissolved yeast into a bowl and add enough flour (3/4 to 1 Cup unsifted) to make a running batter.

Place in small crock or in large jar. Do not cover tightly. Just cover jar with a cloth or place a saucer over the top of the jar.

Put in a warm place to sour.

Each day for 5 days, add 1/2 cup luke warm water and enough flour to keep the batter at the same consistency. You will then have a sour dough starter.

For really good flavor, dough should be properly soured before using.

Every time you use some of the starter again add water and flour.

If you use only occasionally, you may store it in the refrigerator and feed it every week with flour and water.

Never put any of the mixed batter into the starter. Keep it perfectly free from fat, egg or other leavening material.

FOR HOT CAKES: 3 Well beaten eggs 1 Cup milk 2 Cups sour dough mix 1 3/4 Cups sifted flour 1 Tsp. soda 2 Tsp. baking powder 1/4 Cup sugar

Combine all ingredients.

Bake on a greased griddle.

These can be made on an ungreased griddle but in that case 1/4 Cup of melted fat must be added.

To make thinner cake add more milk.

Bake at 370 degrees.

1 teaspoon salt
2 tablespoons butter

To prepare starter:

Mix together 2 cups flour, 2 cups warm water, and 1 pkg. dry yeast in a bowl. Cover with damp cloth and let stand in a warm place overnight or for at least 6 hours. (If left in oven, there is not need to turn on oven; pilot light will provide enough heat or turn electric oven to "warm".)

To prepare Hot Cakes:

Measure 1/2 cup sourdough starter and place in closed...

Heat griddle over medium heat.

Use 1/4 cup batter for one medium-size hot cake. Pour onto hot griddle. Turn hot cake when top is covered with bubbles and edges looked cooked. Brown on second side.

Serve with honey and melted butter.

Makes 8 Hot Cakes.

The yarns about Alaska's famous sourdough are as big as the country. "Sourdough Pete," so the legend goes, first brought it from Michigan at the turn of the century. The old-time prospectors and pioneers, nicknamed "sourdoughs," wore their precious sourdough starter in a bag inside their shirts and slept with it under the covers to keep it from freezing. Trappers not only considered it their "staff of life" for the hot cakes, waffles, muffins and bread it made; they also used it for tanning hides!
